

9 December 2019

Dear Sir / Madam,

We at the CSIR-Centre for Cellular and Molecular Biology are planning to conduct the "CCMB-Young Innovator's program" for school children of classes VIII to X. This provides the children an opportunity for close interaction with scientists and also gain firsthand experience of research work for a period of two weeks. The programme will be held during the first and second week of January 2020. Since we can only accommodate a few participants, we select students in two stages. In the first step, we request you to select TWO students based on criteria set by you. Please note that students who have participated in this program earlier will not be admitted this year. All the selected students will have an opportunity to attend a lecture by Dr. VM Tiwari, Director, NGRI on December 26th, 2019. Prior to the lecture, there will be a screening test with multiple choice questions, based on which only a few students will be selected for the 2-week programme. All students will receive participation certificates.

The selected students will be informed about the 2-week program a couple of days after the screening test, and the program will begin immediately afterwards from 31st December. We will only notify the schools, hence it is mandatory that the relevant authority / school principal share their mobile and other details when sending nominations. You may kindly follow the procedure detailed below:

Nominate not more than TWO students from your school. At the school level you may use any metric for selection. Students should carry their ID card as well as permission letter from the school Head / Principal. Travel to and fro should be taken care of by the school / parents. CCMB is not liable for any loss, damage or injury during the programme. The nomination must be sent on or before December 21st, 2019 by e-mail or post to

Dr. Surabhi Srivastava

Skilling and Research Manager
CSIR-Centre for Cellular and Molecular Biology, Uppal Road, Tarnaka
Hyderabad – 500 007
e-mail: ssurabhi@csirccmb.org

The lecture and the screening programme starts at 2.00 PM and is expected to be over by 6.00 PM on Thursday, December 26th, 2019. Students must report by 1.00 PM at the CSIR-CCMB reception. The exact dates of the 2-week program will be intimated to the selected students through their respective schools.

Dr Surabhi Srivastava
